

ADTRAN Enterprise-Class

WI-FI SOLUTIONS

Benefits

- 100% Cloud-Managed Wi-Fi without required subscriptions
- Powerful Enterprise-Class APs available at market disruptive pricing
- Zero touch AP provisioning and Zero IT setup in 5 minutes or less
- Machine learning-powered self-optimizing and healing technology
- Context-Aware Security and Firewall
- Seamless feature and service upgrades to match your unique needs and budget
- Scale from a handful of APs to thousands across multiple locations and customers

Overview

Whether a local attorney or doctor’s office; hotel, motel or B&B; independent coffee shop or local branch of a global chain – micro and small businesses, medium and large distributed enterprises alike all expect fast, reliable Wi-Fi. For many, it seems that enterprise Wi-Fi often comes with a compromise. If you want low costs, you often compromise on performance, having true enterprise-class functionality and support. If you want high performance, along with enterprise-class features and support, you can expect high costs and complexity. Simple cloud-managed solutions have emerged but they require expensive recurring subscriptions. ADTRAN Enterprise-Class Wi-Fi Solutions offer simple, robust, adaptable enterprise Wi-Fi connectivity and security without compromise.

With ADTRAN Express, every AP is a starting point – enabling you to think big and start small. Leverage the power and simplicity of 100% cloud-managed Wi-Fi, “right sized”, without required subscriptions. Combine that with high performance enterprise-class APs available at market disruptive pricing and machine-learning-powered self-organizing and healing technology – allowing you to get the network up and running quickly, keep it running smoothly and ensuring the best possible quality of experience.

Scale from a handful of APs to thousands across multiple locations and customers. Seamlessly upgrade to elevate the experience with Enhanced Support or upgrade to ADTRAN Elite including advanced features and unparalleled flexibility in deployments options. With ADTRAN Enterprise-Class Wi-Fi Solutions, you can create an experience to best fit the unique needs and budget of your organisation.

WI-FI SOLUTIONS

Feature Comparison

Express Cloud	Elite Cloud or On-Premises
Centralized Cloud-Management	Everything in Express +
Real-time/Historical Reporting and Analytics Dashboard	Advanced Guest Manager <ul style="list-style-type: none"> • Lobby Ambassador • Sponsored/Self Sponsored Accounts • Email/SMS Account Validation
Zero Touch AP Provisioning

Product Specifications

ADTRAN Express

100% Cloud-Managed IT

- No required subscriptions or licences
- No installation or management of on-premises controller or software

Powerful Enterprise-Class APs

- Available at market disruptive pricing 75% lower than typical enterprise-class APs and licences

Deployments Made Simple

- Zero Touch AP Provisioning
 - ◆ APs automatically discover the cloud, download firmware, and configuration.

■ Zero-IT Setup

- ◆ Enjoy a fully functional employee and guest network in 5 minutes or less with just a few wizard driven key strokes and mouse clicks

■ Machine learning-powered Wi-Fi that just works

- ◆ Self-optimizing and healing technology
 - ◆ DynamicRF - Maximises performance and adapts to interference by learning about the RF spectrum and automatically adjusting optimal radio settings
 - ◆ DynamicSteering - Automatically steers clients to the best AP or radio within an AP to provide the best possible quality of experience, provides load balancing and prevents "sticky Wi-Fi clients"
 - ◆ DynamicMulticast - Prevents multicast traffic typically sent at low data rates from impacting overall performance by learning about traffic patterns and automatically adjusting optimal multicast settings

Unmatched Visibility and Insight

- Web-based HTML 5 admin interface enables centralised management of the WLAN from any device, anywhere in the world.
- Multi-tenanted tiered admin access allows support of multiple customers or sites, on a single instance and provides administrators with permissions to just those sites and the resources within them
- Customizable Dashboard Branding (Logo/Colours)
- Real-time and historical reporting and analytics dashboards
- Complete RESTful web services API for automation, orchestration and analytics

A “Right Sized” Feature Set

- Focused on robust enterprise connectivity and security
- Seamless upgrades to ADTRAN Elite features and flexible deployment options

Context-Aware Security and Firewall

- Role-Based Access Control with L7 Device Fingerprinting allows you to define group policies based on multiple contexts including user credentials, device type, ownership of device (company owned or bring your own device (BYOD)), location and schedule

Seamless Layer 2 Mobility

Every AP is a Starting Point

- Scale from a handful of APs to thousands across multiple locations and customers

Remote Site Survivability

- APs continue to function if the connexion to the ADTRAN cloud goes down

Interactive Support Community

- Optional upgrades to enhanced support and extended warranty with advanced hardware replacement

ADTRAN Elite

Everything in Express +

- Includes everything in ADTRAN Express plus more

Advanced Features

- Advanced Guest Manager
- Advanced authentication methods
- Wireless Intrusion Detection (W-IDS)
- Heatmaps for RF planning and rogue AP location tracking
- Seamless Layer 3 mobility

Flexible Deployment Options

- ADTRAN cloud or yours

Enhanced Support and Extended Warranty

- Cloud and Support SLAs
- Advanced hardware replacement
