

# TOP 5 REASONS

TO

CHOOSE ADTRAN RFOG SOLUTIONS

## FUTURE-PROOFED

- DOCSIS 3.0 and 3.1 support
- 1G and 10G EPON pass-through available
- No stranded investment with zero-touch migration to IPTV over EPON

## FASTER TIME-TO-MARKET

- Zero impact to standard RFoG installation and support processes
- Uses existing headend and back-office systems
- Deployment options for new or existing infrastructure

## COST EFFECTIVE

- Zero initial capital outlay
- Zero rack space, cabinet space, or power impact
- Zero incremental labor or maintenance
- 50% lower cost versus an optical distribution solution

## PLUG-AND-PLAY

- Works with all standards-based RFoG solutions
- Temperature hardened for flexible deployment
- Standard powering options

## HIGH PERFORMANCE

- Mitigates packet loss from OBI to undetectable levels
- Energy efficient and coordinated upstream lasers
