

# ProCloud NG Firewall

## Highlights

- Scalable solution that requires no software installation
- Blocks malicious sites, hacking attempts, phishing schemes and other exploits
- Intuitive dashboard with insights into system performance
- Deploy on existing hardware, as a virtual machine, or on a turnkey appliance

## Next Generation Firewall for Today's Networks

ProCloud NG Firewall is a modular platform that fits the evolving security needs of your organization without the headaches of multiple point solutions. Enjoy the flexibility to deploy NG Firewall on third-party hardware, as a virtual machine, or as a turnkey appliance.

The browser-based, responsive and intuitive interface enables you to create security policies quickly and easily. NG Firewall's database-driven reports are some of the most comprehensive and detailed in the industry. Security, insight, control: you've got it covered.

# ProCloud

## Command Center

The Command Center Appliances view provides critical information for each of your NG Firewall deployments.

## 360° Dashboard

The NG Firewall 360° Dashboard is a new way to look at the data available in the Reports app and acts as a single pane of glass providing security alerts and insight into system performance.

## App Selection

The NG Firewall platform is designed to work like an App store. Turn security services on or off with a click of a button.

## Simply Powerful

NG Firewall is designed to balance performance and protection, policy and productivity. It's an ideal fit for a range of organizations seeking a powerful, cost-effective network security solution that can handle any IT challenge: from small, remote offices to diverse school campuses to large, distributed organizations.

### Comprehensive Security

NG Firewall gives you more protection with flexible deployment options. Tackle malware, hacking attempts, phishing schemes and other exploits before they ever reach your users.

### Next-Generation Filtering

Get a handle on every rogue application, encrypted web request, malware distribution point, drive-by malvertising attempt, and email spam. NG Firewall puts you in control of what your users can access, install and use.

## Superior Connectivity and Performance

Meet the challenges of a remote workforce, branch offices, and guest Wi-Fi. Keep users and data safe regardless of location or level of access. Balance competing priorities, ensure Quality of Service (QoS) and maximize uptime while saving the organization money—with features you can't get from competitive Next Gen Firewall and Unified Threat Management products.

### Deep Analysis and Insights

See who's doing what when on your network with deep packet inspection technology. Set policies by user, group, device, time and application. Leverage database-driven reports for real-time and historical insights—all delivered on-box without the need for a separate appliance. Get valuable insights at a glance with a customizable, widgetized dashboard. Or, share template-driven, customizable reports via email with each of your stakeholders.

### Protect

- ✓ Firewall
- ✓ Intrusion Prevention
- ✓ Phish Blocker
- ✓ Virus Blocker

### Connect

- ✓ IPsec VPN
- ✓ Captive Portal
- ✓ OpenVPN
- ✓ Tunnel VPN

### Filter

- ✓ Web Filter
- ✓ SSL Inspector
- ✓ Application Control
- ✓ Spam Blocker
- ✓ Ad Blocker

### Manage

- ✓ Directory Connector
- ✓ Policy Manager
- ✓ Reports

### Perform

- ✓ Bandwidth Control
- ✓ WAN Balancer
- ✓ WAN Failover
- ✓ Web Cache

### Tools

- ✓ Branding Manager
- ✓ Live Support
