

## ADTRAN Technical Solutions Associate for Internetworking (ATSA/IN) Curriculum (Online Training)

ADTRAN Technical Solutions Associate for Internetworking (ATSA/IN) is the foundation level certification for technical staff that will be responsible for designing and implementing solutions using ADTRAN's NetVanta Internetworking products.

In the ATSA/IN curriculum the students will learn the basic operations of the ADTRAN Operating System (AOS) and NetVanta hardware as they relate to IP routing, Ethernet switching, and network security, plus provides a solid understanding of basic data and internetworking concepts. ATSA/IN consists of two online training courses that will take approximately twelve hours to complete. Learner must pass one comprehensive exam to obtain ATSA/IN. You must enroll in the exam separately. **To enroll, go to [www.adtranuniversity.com](http://www.adtranuniversity.com).**

### Course Content

- Introduction to Internetworking
- Introduction to ADTRAN Internetworking Solutions

### Prerequisites

None

### Course Length

- Introduction to Internetworking - 10 hours
- Introduction to ADTRAN Internetworking Solutions - 2 Hours

### Who Should Attend

- End Users
- System Engineers
- Network Engineers
- Value Added Resellers
- Distributors
