

ADTRAN Technical Solutions Associate for IP Business Gateways (ATSA/IPBG) Curriculum (Online Training)

ADTRAN Technical Solutions Associate for IP Business Gateways (ATSA/IPBG) is the foundation level certification for technical staff that will be responsible for designing and implementing solutions using ADTRAN's IP Business Gateway solutions.

In the ATSA/IPBG curriculum the students will learn the basic operations of the ADTRAN Operating System (AOS) and the NetVanta 6000 and Total Access 900 series. ATSA/IPBG curriculum consists of three online training courses. Learner must pass one comprehensive exam to obtain the ATSA/IPBG certification. You must enroll in the exam separately.

To enroll, go to www.adtranuniversity.com.
