

ADTRAN Technical Solutions Professional for Internetworking (ATSP/IN) (Instructor-led)

This course is designed for those students who will be designing, implementing, and supporting solutions using ADTRAN Internetworking products.

This course will include interactive lecture as well as lab exercises. Integrated lab exercises are designed to reinforce the class content with installation, configuration and troubleshooting procedures associated with the NetVanta Internetworking products.

After the completion of the course, the student should be able to install and maintain the ADTRAN NetVanta Internetworking products.

To enroll, go to www.adtranuniversity.com.
